

Renous Gatehouse is on the NORTHWEST side of the highway.

Please note: All GPS coordinates are expressed in Decimal Degrees.Decimal Minutes (xx-xx-xxx) format-

Once you arrive at Renous Gatehouse...(46° 54.676'N 67° 21.969'W)

Park vehicles at gate- there is an intercom system contained in a box on the side of the building-push the button and a remote operator will answer the phone . This person will be a security guard employed by the landowner. Inform them you are going to Long Lake Adventures. He or she will require your name(s) to verify your identity (we provide them with a list in advance)and *may* ask for the number of persons with you, vehicle description, plate number etc. The operator will then remotely open the gate and you can proceed.You do not need to sign anything or pay any land use/entry fees as these are included in our rates.

IMPORTANT: You are now on private forest roads owned by Acadian Timber -heavy trucks and equipment ALWAYS have the right-of-way, always beware of the fact these roads are shared with heavy trucks hauling 50 +tonnes that lack the maneuverability that passenger vehicles do-don't stop for breaks on blind hills,in gulleys or on bridges-if you have to stop do so only in places with *reasonable visibility* in BOTH directions and pull your vehicle as far off the road as possible.;use due care when traveling on gravel roads bearing in mind the possibility of loose gravel and dusty conditions;drive with headlights on;obey all signage... /you accept all of the aforementioned as a condition of traveling on their property-*neither they nor us will responsible for any damage to persons or property while on their forest lands.*

Exercise caution with smoking materials, use your ashtray, do not smoke if you have your windows down.

After you depart the gate :

- 3.Turn first right on to access road 400 metres/yards
- 4.Merge on to primary forest road (Tower Hill road)(46° 55.368'N 67° 21.894'W) 2 km (1.2 Miles)
- 5.Continue on primary forest road for 43.3 km (26.9 miles)
- 6.Turn right into our driveway at (47° 3.588 N 66° 55.435'W)-we will greet you at the main camp which is the furthest cabin on your right.

Welcome to Long Lake Adventures!
